We attach the following condensed report, for the easier understanding of the various items to be considered.

There were desirable matters brought to our attention which we are obliged to advise against considering this year in order to hold our tax rate down to a reasonable figure.

Our budget, if adopted as recommended, should give us a rate of not over \$3.00 per hundred.

We recommend for the Water and Sewer Maintenance \$5,500.00 which is \$500.00 less than last year, and we also recommend that this amount be taken from any unappropriated money in the treasury.

We also recommend that the town appropriate the sum of \$14,000.00 for the completion of the water and sewer construction on Cascade Hill, and that it be taken from any unappropriated money in the treasury.

We recommend that the town appropriate the sum of \$500.00 for the skating rink, the same amount as for the last several years, and that it be taken from any unappropriated money in the treasury.

We recommend that the town raise and appropriate the sum of \$500.00 for the permanent construction of the following short pieces of road:—

Church street, from the Grand Trunk crossing to Promenade street.

Corner of Glen road and Washington street.

Corner of Railroad and Exchange streets, to a point near the Grand Trunk freight house.

Cascade Hill from Berlin road to the Grand Trunk overhead bridge.

We feel that some action should be taken at this time in regard to the purchase of a tractor and plow for use on our roads, and we therefore recommend the adoption of the article in the warrant dealing with this question.

Because of the demands for other things we recommend that the appropriation for the Common be reduced to \$1,000.00.

We also recommend that all money appropriated for the Common and rink be expended under the direction of a committee of three to be appointed by the moderator,—one for one year, one for two years, and one for three years,—and that hereafter one member be appointed each year in the same manner, to serve for three years.

Trunk line maintenance.....	\$ 6,300.00
State aid maintenance.....	450.00

Auditors' Report

This is to certify that we have examined the accounts of the various departments of the Town of Gorham for the fiscal year ending January 31, 1925, and report as follows:

The receipts of the Town as shown by the books of the Selectmen and Town Treasurer were checked as to source and amount.

The disbursements of the Town were all covered by vouchers; all payments made by the Town were receipted by cancelled checks. The books of the Selectmen and Town Treasurer were found to agree. All funds received by the Town Treasurer were deposited in the White Mountain National Bank; all payments made were by checks signed by at least two of the Selectmen and countersigned by the Town Treasurer.

An error of the Selectmen was discovered as follows:

Pearl G. Wilson, a nurse, presented bill against the Town for services rendered; the total as shown on her bill appeared to be \$336.22, although the items figured \$226.22, which amount agrees with the records of the Nursing Department. On August 5, 1924, the Selectmen executed voucher and check No. 429, in the amount of \$336.22 to cover the bill, thus making an over payment of \$100., this amount should be recovered, therefore, the Selectmen will show the account as an asset.

The accounts of the Water and Sewer Department were checked with the books of the Selectmen and Town Treasurer. The receipts of the Department were turned into the Town Treasurer; the charges against the Department were paid by the Selectmen and covered by vouchers.

The accounts of the Highway Department were checked with the books of the Selectmen and Town Treasurer.

All payments for labor on the Water and Sewer System and on Highways were covered by payrolls signed by those who received the money.

The accounts of the Town Clerk were checked with the stubs used; all funds collected were turned into the Town Treasurer and covered by proper receipts.

The accounts of the Agent of the Municipal Building were checked with the books of the Selectmen and Town Treasurer; all funds collected were turned into the Town Treasurer and covered by proper receipts.

The accounts of the Municipal Court were checked with the Court Docket and Complaints and Warrants; all funds due the Town were turned into the Town Treasurer and covered by proper receipts.

The Tax Collector's accounts of the amount of taxes committed for collection, the amount collected including interest and extra taxes, property taxes sold and abatements were checked. All taxes collected were turned into the Town Treasurer and covered by proper receipts.

The accounts of the Library and District Nursing Departments were checked with the books of the Selectmen and Town Treasurer.

The account of the Trustees of Trust Funds were examined and found correct.

We would recommend that all payrolls be made in triplicate so that one copy can be attached to voucher.

We would urge that each Department use particular care in the distribution of payments shown on the books.

E. H. CADY,
J. O. GEORGE,
Auditors.
